Subject: ARSG Meeting Notes
[May 27 2015 meeting summary.docx](#)

Dear Stakeholders – Attached are meeting notes from our May meeting. We are not planning a meeting in June. Our July meeting is scheduled for the fourth Tuesday, July 28th. Because some people may be working in the field, we will probably do an evening meeting.

We are considering doing two tours this year. The first will be Saturday, June 27th as discussed in earlier emails. We currently have 25+ people signed up. This tour is for the general public, to give people a broad understanding of the work that has been done and still needs to be done in the upper Animas Basin. Every couple of years, we do tours like this.

The second tour will be in September. It will be targeted for people who want to get into the specific details of what remediation was done at which sites, and what has worked well and what hasn't. We will visit a number of sites that we frequently don't go to in the general public tour. Conversely, we will also probably leave out some of the sites and discussion we will do for the June tour.

Finally, Trout Unlimited has just brought a new website online to build support for Good Samaritan legislation. We are very supportive of their efforts and thank them for putting time and resources into this issue which ARSG been involved with for over fifteen years. We are hopeful that some new energy will make something happen.

Please visit their website and sign up on it. Basically it's like a petition to show our congressional representatives that we want them to take action. Both Senator Michael Bennett (D) and Rep. Scott Tipton (R) are working together to introduce Good Samaritan legislation in the coming months. Show your support! www.sanjuancleanwater.org
